Project Complete!

We're almost there. Help rebuild Santa Barbara's birthplace, one brick at a time.

Increase museum space and provide a venue for the interpretation of Native American, Spanish, Mexican, American and Asian communities in Santa Barbara over the last two centuries.

Experience an entire wing of the Presidio quadrangle, from corner to corner, creating a sense of the size and scale of the original adobe fort marking Santa Barbara's birthplace, and an inspiration for the city's world-famous architecture.

Restore and preserve the fragile architectural heritage of California with ongoing workshops on archaeology, adobe architecture and sustainable building practices in Santa Barbara. **Brown is the new Green!**
